VOICE OF THE PEOPLE.

Mayor Grant, on Behalf of the Council, Explains the Loan By-Laws.

Rev. Mr. McLeod on the Jesuit Bill—Chief Deasy Heard From.

THE LOAN BY-LAW.

To the Editor of The Times:

Sir,—I have been requested by the board of aldermen to present to the ratepayers a few facts, and the intentions of the board, anent their asking for power to borrow certain sums of money for corporation purposes.

First, It is absolutely necessary that the $70,000 by law should pass, as the balance that was on hand out of the $75,000 loan by-law passed in 1886, has been expended on the 16-inch main, leaving a deficiency to complete that work of $41,000. Out of this last sum the Albion Iron Works Co. will have to receive about $23,000 in addition to over $12,000 which has been drawn out of the general revenue fund to pay wages. This last sum was advanced so that the work might not come to a standstill. The balance of the $41,000 will be required to pay wages now due and those which will accrue by the time the line of pipe shall have been covered. The balance of the $70,000, viz., $29,000, it is intended shall be expended in improving the reservoirs at the head works, in bringing the water directly from Elk lake into the filter beds without being passed through Beaver lake, which no doubt would be an important factor in providing the consumers with a better quality of water; and in extending a line of large pipe from the 16-inch main by way of Fernwood road to the higher levels.

The Board of Aldermen feel that many consumers have already derived much satisfaction through the increased supply that has been obtained during the last two weeks, although less than half of the capacity of the 16-inch main has been utilized up to the present time. The benefits that will be experienced when the new main shall have been discharging to its full capacity, will be still more appreciated, and will give the city a double guarantee against destruction by fire.

Second, The water distribution of this city was improved and extended during the last year by replacing large pipes for small ones, and the laying of a number of miles of new street mains, aggregating six and a quarter miles in all, at an expenditure, including maintenance, of $49,069.75. Before the distribution system can be said to be near perfect, so that all those desiring a water supply can be furnished with that necessary element, it will require a further expenditure of from $60,000 to $100,000. In this connection it is intended by the board to make the works still more efficient by laying larger street mains where only small ones are at present, with the object of giving a better supply both for domestic and fire purposes. Much has been done during the last year to make the city service a circulating one, so that all consumers could be supplied with a uniform quality of water. This is done by extending the dead ends to connect with other pipes. To make the distribution absolutely circulating a deal has yet to be done.

Everyone residing within the municipality is entitled to a supply of city water, therefore it is the duty of those who are more fortunate to obtain a fair share of this blessing. Further, the Board feel that they do not wish to be condemned for not providing proper means to control fire, as has been the case in Seattle. The verdict is with the ratepayers, and on them will rest the responsibility if the by-law should be defeated. The revenue derived from the new services placed during the last eighteen months will more than pay the interest and sinking fund on the loan asked for.

Third, the $25,000 which it is proposed to expend on Beacon Hill Park is for the purpose of carrying out in part the very handsome landscape design adopted by the aldermen. When it is considered how much has been done already by the expenditure of a small sum on that naturally beautiful recreation ground, it will be understood how much more could be accomplished if this sum is voted.

Fourth, The $15,000 asked for fire purposes ought not to require any explanation, as everyone knows that the more perfect that we can make the fire department of Victoria, the greater security there will be against fire. I ask the ratepayers to remember that without an efficient supply of water fire appliances are of but little use, as was very unfortunately demonstrated in Seattle a short time ago. Respectfully,

JOHN GRANT,
Mayor.

TO CHRISTIAN ORGANIZATIONS AND GENERAL PUBLIC.

To the Editor of The Times:

Sir,—A little over a year ago a professing Christian temperance man put in his appearance in this city, who has at present no other more important object in view than that of inducing the public to sacrifice their interests for the promotion of a surmised institution where all things are to be held in common. This he does under the cloak of Christianity a plausible account of an imaginary success he has already met with together with a suavity of manner which apparently has a fascination for unsuspicious persons, and more especially those endowed with a predominance of a generous and moral nature.

The W. C. T. U. have under consideration the propriety of purchasing a cow for probable settlers. The Blue Ribbon Club have not as yet decided whether they shall comply with the request for the precentation of a turbine wheel, part of machinery for the proposed sawmill. The "Good Templars" and Single Tax club committees on behalf of their members quickly determined that to make gifts of cows to and to accumulate lots of coal among the aforesaid society's benefit, or in any way to assist said seal, an impracticable scheme would be a waste of public money. The aldermanic board in reply to his solicitation for funds, referred him to the Dominion government. Pro Bono Publico.

A FRIENDLY CONVERSATION.

To the Editor of The Times:

Sir,—"Spectator" and "Confederationist" may now retire and leave my friend Mr. Angus and myself to a friendly conversation on the important questions raised by these correspondents. Mr. Angus says "certain sums of money are held by the Quebec government, the property of one or more societies of Catholics and the Pope is appointed arbitrator as to how the funds are to be apportioned." Every clause in that sentence is incorrect. The government of Quebec have no such trust money in their possession and the Jesuits have admitted they have no legal claim upon the government. They only profess to have what they call a moral claim for compensation for the estates escheated to the crown in 1800 when the last of the old Jesuits died. As to the value of that moral claim I would willingly leave Mr. Angus to be the judge when he had all the facts before him. The government of Quebec possess no trust fund belonging to the Jesuits and Mr. Mercier entreated the Pope and the Attorney of the Jesuits to be moderate in their demands on account of the poverty of the government and the many claims on the public purse. Again the Pope is not appealed to as an arbitrator, so that Mr. Angus' illustration does not meet the case. The Pope initiates the legislation, and claims absolute authority to decide what the government must do in the case. The preamble of the Jesuit bill makes that perfectly clear. The Pope is no arbitrator but rather a dictator. He gives the premier of Quebec leave to legislate. He says that he reserves to himself the right of settling the question of the Jesuit estates in Canada, and as a matter of fact the legislature simply carry out this instruction. The fear of a religious strife is no reason for relinquishing the civil liberties our fathers purchased for us with their blood, and if I know Mr. Angus rightly he will remain true to his liberal traditions and refuse to allow any attempt to hand over our legislatures to any sect to be manipulated by them for their sectarian purposes.

P. McF. MacLeod.

THE FIRE BY-LAW.

To the Editor of The Times:

Sir,—In answer to enquiries regarding the expenditure of the sum asked for in the fire by-law, permit me to state that the sum of $5,000 will be required to pay for a first class Merryweather steam fire engine, capable of throwing 750 gallons of water per minute. This steam fire engine will throw four streams of water and will replace the two old engines at present in use. It will be necessary to repair the old engines at a cost of about $500. The removal of verandahs from the front of the high buildings in the city calls for a new extension truck, which will cost $4,300. The old truck at present in use carries very short ladders, and it will be found necessary to afford ready means to reach high buildings at the early stage of a fire. The sum of $2,100 will be required to purchase new hose. The firemen require increased accommodation. At present 13 men are sleeping in one room at the central fire hall. The alarm system in use requires improvement at an early day, and the erection of new hydrants on the line of the water mains will add to the protection of our city. The expenditure of the sum asked for will add materially to the protection of this city from fire and will afford the fire department facilities which were lacking in Seattle and other places. The improvements noticeable in our city, so far as the fire department is concerned, were made at the lowest possible expense to the ratepayers. During the past two years a noticeable change has been apparent in the manner of reaching and suppressing fires, and the fire loss during that period is far below the average. The steam fire engine, "Deluge," was taken out of service a few days ago, after twenty years of work, and the other engine has leaking tubes. The old hook and ladder truck is broken in several places, and it is absolutely necessary to have a good truck at once. The amount saved by the fire department this year would cover the cost of the new apparatus required. The engine, trucks and hose will last for years and will be a credit to our enterprising city.

Thomas Deasy,
Chief Engineer, Victoria Fire Dept.

COMOX NOTES.

Loss of a Barn by Fire—General News.

There is some talk of starting a lodge of the I.O.O.F. here. There is plenty of good material among the men, and your correspondent would be very glad to see the project carried out.

We are now enjoying the luxury of a good supply of wholesome water. Work has been under progress for the past couple of weeks, and it is now almost completed. The supply is drawn from a mountain stream a mile or two from camp and is conducted through a wooden aqueduct to a reservoir, situated on a hill opposite the camp. From there iron pipes are laid along the streets, and hydrants placed at convenient points, so that those who wish may have the water brought into their dwellings. When completed we shall have a system of waterworks such as is not possessed by many cities.

The company is to be congratulated on their wisdom and liberality in thus meeting the wants of the people in their employ. No doubt the beneficial effects will be seen next fall in the absence, or greatly diminished amount, of typhoid fever, which was prevalent last year.

Qualiquam Jim, who was tried in Nanaimo at the last assizes for murder and discharged, died a few days ago of consumption.

A fight occurred yesterday between some Fins at the Union Mines. One of the foreigners drew a revolver and fired two shots at his opponent, but fortunately none of them took effect. He was arrested and fined $20 and costs, and bound over in $250 to keep the peace for six months.

Mr. D. Pettinger, who is in the employ of Mr. Fee, has been sick with inflammation of the bowels for some days. To-day he is slightly better.

Mr. McGee, a timber prospector, is lying dangerously ill at the Cliff House.

A barn, containing a quantity of hay, the property of Mr. Drabble, of Comox, was destroyed by fire yesterday. It is said that a child started a small fire near it, which rapidly spread, igniting the building, which was totally destroyed. The child, alarmed at the consequence of its act, took to the woods and did not return for some time. The building was not insured.

TO-DAY'S DISPATCHES.

The Tacoma Murder—"Jack the Ripper" Probably Caught at Last.

Cardinal Laigerie Recommended as the Pope's Successor—The Usual Accidents.

By Postal Telegraph.]

New York, July 20.—It is reported that Sir Julian Pauncefote, who sailed for Europe to-day on the Etruria, carries with him a rough draft of agreement between Great Britain and the United States, covering the Canadian and Behring Sea questions, which will be submitted to Lord Salisbury for consideration and suggestions.

JACK THE RIPPER.

London, July 20.—The man who surrendered to the police yesterday, confessed he committed the crimes attributed to "Jack the Ripper," says his name is William Brodie. To-day he told the magistrate the confession was true. The magistrate remanded him for a week.

The identity of the man caught at two o'clock this morning has not been established, but hopes are entertained that he may be the Ripper.

DROWNED.

Red Bluff, Cal., April 20.—Last evening Geo. Thompson, twenty one years old, was drowned while bathing in the Sacramento river at this place. The body has been recovered.

A TACOMA MURDER.

Tacoma, July 20.—C. C. Grant, who was found dead yesterday on the floor of his room in the Franklin House, the blood gushing from a horrible wound in the throat, was murdered in the sight of several trembling spectators whom, it is said, were too frightened to interfere. The murderer, D. E. Martin, *alias* R. E. Coleman, fled and has not since been seen. The police are now in pursuit.

The shooting occurred about 2:45 in the morning. Martin is supposed to have entered the room in his stocking feet and shot Grant in bed. Grant and Martin came here and engaged a room together. Three shots were fired. One struck the headboard about a foot above the pillow. A slugshot was found on the floor and shot was scattered about the room. The panel of the door also had some holes, showing that evidently the shots had been fired through the closed door by Martin while holding the same to prevent the victim from escaping. After Martin had retreated he returned and robbed his victim and then fled again. He returned for Grant's vest and was allowed to take it away under the nose of half a dozen witnesses, the smoking revolver still in his hand. When asked what the matter was, he replied, "There's robbers in the room." A large sum of money in currency is supposed to have been taken from inside his vest pocket, and in Grant's pants were found $100 in gold. In his coat was a bank book which showed $6,000 deposited in the Traders' Bank, Spokane Falls.

KANSAS TROUBLES.

Topeka, Kansas, July 20.—Owing to a decision of the Supreme Court just rendered, declaring Wm Eminence the legal county seat of Garfield county, war is feared. The people of Ravanna, the present county capital, propose to resist the removal of the county records and are heavily armed to prevent an attack.

DESTITUTION.

Grafton, Dak., July 20.—Reports from the Canadian Northwest and along the Dakota line state that crops are in a bad shape and farmers are destitute. Many families are famine stricken and sick.

GOBBLING ELEVATORS.

Minneapolis, July 20.—The representatives of an English syndicate, who have been in this city for over a month, inspecting flour mills, have finally completed negotiations for the purchase of a line of elevators. The price paid is said to be about five million dollars.

ANOTHER STRIKE.

West Superior, Wis., July 20.—Street laborers, numbering over six hundred, have struck for an increase in wages. They threaten trouble and a company of state militia has arrived to protect property.

THE NEXT POPE.

London, July 20.—The international anti slave congress opens at Locerne on August 4th. Cardinal Lavigerie will preside and services will be held daily. Forty negro slaves who have been redeemed by the missionaries of Central America, will chant prayers in the Roman Catholic cathedral. The congress will be composed chiefly of Roman Catholic priests. Cardinal Lavigerie has been recommended by the pops to a number of cardinals as his successor in the vatican.

THREE PERSONALS.

London, July 20.—Great anxiety exists at the disappearance of a son of publisher MacMillan, who left Brussels ten days ago to ascend the Olympus. It is feared some accident has occurred to him.

Mme. Christine Nilsson has become partially deaf as a result of her recent illness.

M. Damala, Sarah Bernhard's husband, has been sent to a private asylum, suffering from melancholia and threatened insanity, the result of excessive indulgence in the morphine habit.

APPOINTMENT.

Washington, July 20.—Chas. M. Levy was to-day appointed by the President to be appraiser of merchandise for the District of San Francisco.

CHARLEY MITCHELL.

New York, July 20.—Charley Mitchell sailed for England to-day on the steamship Etruria and with him went $250 that Norris, of Mississippi, has been seeking. Charley did not appear to be afraid of arrest for he sauntered down the pier to the steamship as coolly as if he never knew a detective. Mitchell said he was glad to get home and later with the help of God would be come to this "blasted" country again. He was accompanied by his wife and Peay Moore.

AN ENGLISH UNIONIST'S VIEWS.

New York, July 20.—An English unionist writes in this morning's *Tribune* that the withdrawal of Mr. Parnell's counsel is without question intended to discredit the judges in the eyes of the English people, but that this will fail of its object goes without saying. This is as transparent a design as is the statement now in fashion in national circles that they "don't care a rush for the report of the commission." This, of course, is simply discounting the adverse report that is inevitably in store for them at the hand of the three learned judges forming the commission, and which is destined to play no little part, I predict, in the second defeat of the home rule party when the country is again summoned to the ballot box. Could only the American public have read verbatim the reports of the commission for the past few weeks as I have done, they would laugh with me at the extreme patience, forbearance and dignity of the judges who have had to witness a series of concealments that I venture to assert stand unparalleled in the annals of any civilized court of law. For this, however, in a sense, the unionist party should be grateful, for the defence has done more through its witnesses to prove the *Times'* case than anything the *Times* itself has offered, and of this fact I imagine no one is more aware in his heart of hearts than Sir Charles Russell.

ITALY WITHDRAWS.

London, July 20.—A dispatch from Rome says Italy has withdrawn from the blockade at Zanzibar.

HEAVY LOSS.

Liverpool, July 20.—The Cotton warehouses of Ben Cross, Grundy street, were burned to-day. Loss $300,000.

A RELIGIOUS CRANK.

Warsaw, Ind., July 20.—Mrs. Martha Danks was arrested and charged with murder last night. Her husband Daniel was also arrested as an accessory. Danks, who recently became a religious crank, compelled his wife to strangle their fifteen months' old child as a sacrifice, claiming the Almighty had promised to resurrect the child.

THE QUEEN'S DEMANDS REASONABLE.

London, July 20.—It is stated that the queen's demands on behalf of Prince Albert Victor and Princess Louise, which have been submitted to the committe on royal grants, are so reasonable that Gladstone, who is a member of the committee, expresses his delight at her moderation. The committee will be ready to submit their report to the house on Monday. Although the committee is composed of members of all shades of political opinion, their report is practically unanimous, there being only one objector, and that is Mr. Labouchere.

SPEECH GONE.

St. Petersburg, July 20.—The Grand Duke Constantine, the Czar's uncle, has lost the power of speech by a stroke of paralysis.

YARONA VICTOR.

London, July 19.—In the Kingston regatta yesterday the Yarona beat the Valkyrie twenty-seven seconds, Irex third.

THE ALLAN LINERS.

London, July 19.—The owners of the Allan Line Steamship company are about to enlarge and improve their fleet between England and Canada. They propose to add several fast steamers to their passenger service, thereby considerably reducing the time between English ports and Montreal and Quebec.

THE AMERICANS AT WIMBLEDON.

London, July 19.—At Wimbledon today, in the shooting for minor prizes in the Steward contest, seven shots at 800 yards, the Americans did some good shooting, Farron making the top score of 33 out of a possible 35. Edes, Sergeant Bull, Doyle and Hinman made 32 each, and Johnston, Merrill and Bullstead 31 each.

PARNELL IS EDINBURGH.

Edinburgh, July 19.—Parnell arrived in Edinburgh to-day to receive the freedom of the city, the ceremonies in connection with which take place to-morrow. Parnell is accompanied by Justin McCarthy, Thomas Sexton, Wm. O'Brien and Tim Healey. The party were received at the station by enthusiastic crowds, who followed them all the way to the hotel, cheering vociferously. In the evening an impromptu meeting of workmen was held in the open air and Parnell and others addressed them. All were loudly applauded.

PROVIDENTIAL INTERFERENCE.

Birmingham, Ala., July 19.—A large crowd of people assembled at Mount Hope church, La Mar county, on Sunday morning to witness the marriage of Justus Shearer and Minnie Moran, two prominent young people of the neighborhood. The ceremony Shearer sank to the floor and died in a few moments. He had heart disease and the excitement of the occasion brought on a fatal attack. Among those present in the church was Wm. Langley, a rejected suitor of Miss Moran. At the first opportunity Langley approached the young lady and told her that Providence had interposed to prevent her marriage to Shearer. He insisted that she ought to marry him as the Lord was clearly on his side. Miss Moran finally consented to marry Langley as soon as Shearer was buried. Shearer's funeral took place yesterday morning, and last night Langley and Miss Moran were married without providential interference.

THE WAR IN EGYPT.

Cairo, July 20.—Rad El Jemi and the dervishes occupy a good position at Wady Halfa. The dervishes are reinforced by new men. The British troops at Assouan to the number of 155 are thought sufficient to attack the dervishes.

THE PORTE WILL SEND TROOPS.

Constantinople, July 20.—In consequence of the threatened uprising in Crete the porte will send troops to that island.

THE QUEEN'S HEALTH.

London, July 20.—In view of the delicate health of Queen Victoria she is making arrangements by which the Prince of Wales will relieve her of much of her labor on state documents. The Prince, in case he assumed the throne and new responsibilities, wishes, it is said, to take up his residence at Buckingham palace and Windsor castle, the Queen retiring to the palaces at Osborne and Balmoral. In the event of this arrangement being carried out, Prince Albert Victor would obtain Marlborough House.

PARNELL IN EDINBURGH.

Edinburgh, July 20.—The freedom of the city was conferred on Parnell to-day with great ceremony and enthusiasm. In a speech he severely condemned the commission.

RUMORS OF WAR.

Will England Cooperate With Italy Against France.

London, July 19.—The statement printed in the Roman newspaper *L'Opinion* on Tuesday caused quite a little stir in the commons to-day. That sheet makes the positive assertion that a definite understanding exists between the British government and that of Italy that in case of a war between France and Italy the British and Italian armies shall co-operate for offensive operations as well as defense. The article further says that when a year ago a French attack upon Spezzia was feared, the British Mediterranean squadron was held in readiness to assist the Italian warships to defend that port. In the house Mr. Labouchere read a translation of *L'Opinion's* article, and demanded of the government what truth there was in the statement. Sir James Ferguson, under foreign secretary, replied that the government in the event of war would be free to take whatever course seemed most advisable, but that no engagements whatever of the sort referred to in the article read had been entered into. As to the alleged arrangements for co-operation with Italy in the defense of Spezzia, Sir James could only say that the government never had any reason to anticipate that an attack would be attempted by France upon that port. Labouchere still persisted, and asked the government to state what truth there was in *L'Opinion's* statement, but Sir James declined to make any further answer.

Terrible Ending of a Practical Joke—Railway Accident at Calgary.

Two Men Picked Up After Drifting About on the Ocean for Five Days.

[Special to The Times.]

Calgary, N. W. T., July 20.—Patrick McNamara, a shoemaker, was struck by a train while walking on the track. He received a terrible scalp wound, laying bare the skull.

A FATAL JOKE.

Montreal, July 20.—The account of a terrible tragedy in the county Berthier has reached here. A Montreal peddler, named Pierre, arrived there, and put up at the house of a friend named Lambert, the only occupant of the house being a 15 year old daughter, the rest of the family having left for Montreal. During the night two masked men demanded admission into the house. Pierre fired on them, killing both, when it turned out that the dead men were father and son, neighbors, who were indulging in a practical joke.

ADRIFT AT SEA AND NO FOOD.

Quebec, July 20.—The Norwegian bark Orlagsliian has arrived here with two American fishermen, Samuel Smith and Samuel Hutchison, who were lost in a fog from the fishing schooner Carleton Bell, of Booth Bay, Maine. They floated around for five days and four nights. They had only about a quart of water in a tin and one raw fish on the fourth day. Their limbs began to swell also their tongues, and they took to sucking the lead sinkers of their lines. When picked up they were barely able to crawl.

ACCIDENTALLY SHOT.

Brantford, Ont., July 20.—Fred Cox, driver of the Dominion Express Co., was killed in a hardware store to-day while examining a revolver in the hands of a clerk named Lawrence.

ARREST FOR ARSON.

Winnipeg, July 20.—A. T. Gillis, of Boissevain, has been arrested for arson. It is alleged that he fired his store on the night of 9th inst., his stock being heavily insured. He was taken to the Brandon jail.

HIGHWAY ROBBERY.

Two Daring Robbers "Hold up" a Carriage Near Vancouver.

[Special to The Times.]

Vancouver, July 20.—A bold and determined attempt at highway robbery was made about 7 o'clock last evening on Hastings road. A Mr. Johnson, of the Retreat saloon, accompanied by his wife, was driving home from Hastings, and was held up near the "Three Bridges" by two men who demanded money. Mrs. Johnson attempted to escape to another vehicle which happened along but was prevented by the men. The noise and shouts attracted the attention of a man in a brewery near by, who ran to the rescue, as did a milkman. The highwaymen were severely handled, when one drew a knife and inflicted two ugly but not dangerous wounds on the neck of the brewery man. Unfortunately both men were allowed to escape. The police have a description and are in search of the scoundrels.

SPORTS AND PASTIMES.

Baseball—Watson and Irvine Will Run This Afternoon.

The Maplelands and James Bay clubs played a match game of baseball on the Caledonia grounds yesterday afternoon, resulting in a victory for the former by a score of 15 to 4.

THE QUEEN'S PRIZE.

The winner of the Queen's prize in the rifle shooting at Wimbledon, is Private Reid of the 1st Lanarkshire regiment. The Duke of Cambridge inspected the Canadian riflemen yesterday.

HOSE TEAM.

The Nanaimo hose team is practising regularly and makes very fast time with a heavy cart. The men composing the team are veritable flyers and when they get a lighter cart the firemen of other cities will have to look to their laurels.

WATSON AND IRVINE.

At 7 o'clock this evening Tom Watson and Geo. Irvine will run 200 yards at Beacon Hill for $50 aside. Betting is even with Watson as the favorite. The two men competed for the prize at Vancouver on Dominion day. For 200 yards Irvine was the fastest man; but the Victoria boy won the race by six or eight feet. The race to-night will be a close one.

HOSE CONTESTS.

W. McGirr, of the Sunnyside hotel, Vancouver, is in this city. It is reported that he is authorized to arrange a hose contest between the Vancouver and Victoria hose teams. The gentleman arrived on Thursday night, but took no trouble to find representatives of the Victoria team. The Victoria firemen are anxious to meet Mr. McGirr. If he is looking for a race he is requested to call at the Deluge engine house between the hours of 1 a. m. and 12 midnight on any day in the week.

TRIFLING WITH MATCHES.

Baltimore, July 20.—Detective Norris was here to-day searching for Kilrain and Mitchell. Donovan called on the city marshall with a requisition. The marshall said he could not recognize the requisition as it was not regular.

FIRST IN PRAGUE, KIG.

New York, July 20.—An immense crowd assembled at the Vanderbilt to-day to get a glimpse of Sullivan, as it was announced he would start for Boston this afternoon. The efforts of three policemen were required to convince the crowd that they would be unable to see him. Sporting men say Sullivan is in fine condition. He has turned a leaf and stopped liquor. Sullivan will probably leave for Boston accompanied by a brother of Mike Muldoon and a number of other sports.

ALASKA NOTES.

A Budget of Latest News from the Far North.

Nanaimo coal is used for domestic purpose sin Juneau.

A rich strike in quartz has been made recently the other side of Wrangel.

The Alaska News Co., an exhibition for the sale of all the leading papers and periodicals of the day, has opened out in Juneau.

A common remark has been, "how homely the lady tourists are who visit Alaska on the excursion steamers!"

Feeling aggrieved over a newspaper criticism, ex-Governor Swineford met editor Myers on the street and stopped him smartly in the face.

Complaint is made that Indians are addicted to riding horses and robbing prospectors.

The schooner Aurania, from Victoria, was spoken on June 26th off Yakutat Bay by the schooner Adventure. They reported all well and that they had captured 365 seals since up to that date.

THE STATE OF EUROPE.

The present position of European politics is in the main much what it has been during the past year. On all sides colossal, ever-increasing armaments, the din of nations gathering for war, yet from the lips of the kings, rulers and cabinets, on all sides the most pacific assurances. What is to be the end of all this? is the question the taxpayers ask, and, indeed, it is sufficiently hard to find an answer. No government, however absolute, will care to be the first to precipitate a conflict, that must inevitably embroil all Europe, nor on the other hand can any of the governments retreat from their present standpoint as regards territorial claims, without risking a serious loss of power and prestige. The crisis, as the occurrences of the last month tend to show, is virtually a double one, and resolves itself into, first, an Austro-Russian; second, a Franco-Italian issue. Let us examine these separately. Russian policy is necessarily harder for outsiders to follow than Austrian. The liberty of the press is more curtailed, and half the matter that the public reads as genuine Russian information is inspired and colored by the Russian government itself. There is also a greater reticence and reserve about discussion of public questions in the Northern empire than in the Southern. Still, facts as facts cannot be altered, and to a careful observer the recent developments in Servia present a most significant aspect.

The Czar, hampered by his treasury, yet impelled by his army, has given a free hand to the Russianizing party in Belgrade. The return of the Archbishop Michael, and his resumption of his throne, the act of the Skuptschina giving a free pass through Servia to Russian agents, the recall of the friendly Servian minister from Sofia, and the order to King Milan not to re-enter Belgrade, all point to the same thing, a resolution on the part of those who govern [illegible] should Boulangism triumph, war must follow; and in eastern and western Europe alike, the next six months will, we may be sure, see the determination of the crisis in one direction or the other.

EDITORIAL NOTES

"A trust" is a combination of business men who cannot trust each other, and trust to trust to do the trusting," is the very lucid definition of an exchange of the word trust.

Dr. McDow, the slayer of Capt Dawson, has been expelled from the South Carolina Medical Association, for immoral, improper and ungentlemanly conduct. "The mills of the gods grind slowly," etc., as the Dr. doubtless will discover before he is many years older.

The Rev. Monroe Crew, a Presbyterian minister of Leclaire, Iowa, astounded his congregation the other night by expressing an opinion to the effect that there was not a virtuous woman in the town between 16 and 25 years of age. After services he was waited on by his hearers who protested against such sweeping remarks. The next day a delegation of young ladies waited on him, and demanded a public retraction, which the minister refused to give, though offering at the same time to apologize privately. This the young women declined to accept, and now the rash minister has left the state, fearing violence. The Rev. Mr. Crew should be gathered unto his fathers with all possible dispatch. This world has need for holy men, but it has no use for fools.

Rev. Father Whelan some time ago offered $500 to any person who would prove that Jesuitism had ever advocated the doctrine that "the end justifies the means." A Dr. Hurlbert, of Ottawa, at once accepted the challenge, when Father Whelan—probably averse to the notoriety that would follow or fearing a public controversy—replied that he had "only been joking." The Equal Rights Association, however, announced that Dr. Hurlbert appeared as the champion of the cause which it espoused, and Father Whelan accepted the gage of battle and withdrew his first objection. The matter has gone so far now that a commission has been appointed to decide between the disputants. Rev. A. E. Jones and Rev. W. Doherty, both Jesuits, will act for Father Whelan, and with two appointed by Dr. Hurlbert, will appoint a fifth, whose decision will probably be rendered according to their individual religious bias and not according to the evidence. Father Whelan insists that the opening of the trial shall not be later than the 29th August.

CITY AND PROVINCE.

—The lungs, liver, kidneys, bowels, &c., act as so many waste gates for the escape of effete matter and gases from the body. The use of Northrop & Lyman's Vegetable Discovery helps them to discharge their duty. Mr. W. H. Lester, H. M. Customs, Toronto, writes: "I have personally tested the health-giving properties of Northrop & Lyman's Vegetable Discovery, and can test fy as to its great value."

—Volumes of bombast have been published about the multifarious and irreconcilable effects of many proprietary remedies. The proprietors of Northrop & Lyman's Vegetable Discovery content themselves with facts susceptible of proof. They state their purifier to be what it has proved itself to be, an eradicator of dyspepsia, constipation, liver and kidney troubles, and a fine general alterative.

—Messrs Parker & Laird, of Hillsdale, write: "Our Mr. Laird having occasion to visit Scotland, and knowing the excellent qualities of Dr. Thomas' Eclectric Oil, concluded to take some with him, and the result has been very astonishing. We may say that in several instances it has effected cures when ailments had been pronounced incurable by eminent practitioners."

—Just think of it—you can relieve the twinges of rheumatism, or the most painful attack of neuralgia—you can check a cough, and heal broken or bruised skin, with a bottle of Dr. Thomas' Eclectric Oil, costing only 25 cents.

—There is nothing equal to Mother Graves' Worm Exterminator for destroying worms. No article of its kind has given such satisfaction.

—Holloway's Corn Cure is the medicine to remove all kinds of corns and warts, and only costs the small sum of twenty-five cents.

The Power that Moves the World

FIRST ANNUAL TOUR
—OF—
D. McLENNAN
—OF—
SAN FRANCISCO, CAL.

THIS WONDERFUL MASTER OF THE Healing Art has arrived in the city, where he intends to remain for a short time, to cure the sick as afflicted of this vicinity. He comes to us laden with testimonials from the leading citizens of California and the Sound. In San Francisco he has practiced for the past sixteen years, and the authenticated reports of some of his cures seem nothing short of miraculous. He uses no medicine and perfects his cures mostly by the WONDERFUL POWER OF MAGNETISM, the gift of but few men on earth. This is the only method of treatment that restores the life-giving principle, magnetism, to the system, thereby increasing the vital powers and electrifying the nervous system, sending the blood coursing and bounding through the veins, withdrawing and allaying in a few minutes all pains and aches from whatever source.

The diseases which yield most readily to the curative agency of this method, as practiced by McLennan, are: Asthma, Bronchitis, Consumption, Deafness, Epilepsy, Gravel, Paralysis, Loss of Voice, Wakefulness, Disorders of Sight, Fits, Piles, Scrofula, Swellings, Sores, Spinal Complaints, Cold Feet and Hands, Biliousness, Contracted Limbs, Deposit Humors, Erysipelas, Nervous Depressions, St. Vitus's Dance, Weak and Failing Limbs, Mental Depressions, Diseases of the Brain, Dyspepsia, Diabetes, Stricture, Impotency, Tape Worm, Carbuncles, Costiveness, Palpitation of the Heart, Liver Complaint, seminal Weakness, Failing of the Womb, Catarrh, Heart Disease, Nerve Sores, Lameness, Rheumatism, Swollen Joints, Weak Lungs, Stout, Goitre, Coughs, Diseases of the Eyes, Neuralgia, Tumors, Tetters, Cancers, White Swellings, Leucorrhœa, Ague and Fever, Milk Leg, etc.

No Medicine Given!
No Surgical Operation!
No Pain Whatever!

A BOWER OF BRANCHES.

SUBJECT OF SERMON PREACHED JULY 14 BY DR. TALMAGE.

The Eloquent Brooklyn Divine Adapts the Words of the Bible Relating to the Feast of the Tabernacles to the Present Time.

THE HAMPTONS, July 14.—The subject of the Rev. Dr. T. De Witt Talmage's sermon today was: "The Bower of Tree Branches." His text was Nehemiah viii, 15: "Go forth unto the mount and fetch olive branches, and pine branches, and myrtle branches, and palm branches, and branches of thick trees, to make booths." Following is the sermon:

It seems as if Mount Olivet were unmoored. The people have gone into the mountain, and have cut off tree branches, and put them on their shoulders, and they come forth now into the streets of Jerusalem, and on the housetops, and they twist these tree branches into arbors or booths. Then the people come forth from their comfortable homes, and dwell for seven days in these booths or arbors. Why do they do that? Well, it is a great festal time. It is the feast of tabernacles; and these people are going to celebrate the desert travel of their fathers and their deliverance from their troubles, the experience of their fathers when, traveling in the desert, they lived in booths, on their way to the land of Canaan. And so these booths also become highly suggestive—I will not say they are necessarily typical, but highly suggestive—of our march toward heaven, and of the fact that we are only living temporarily here, as it were, in booths or arbors, on our way to the Canaan of eternal rest.

And what was said to the Jews literally may today be said figuratively to all this audience. Go forth into the mountain, and fetch olive branches, and pine branches, and myrtle branches, and palm branches, and branches of thick trees, to make booths. Yes, we are only here in a temporary residence. We are marching on. The merchant princes who used to live in Bowling Green, New York, have passed away, and their residences are now the fields of cheap merchants. Where are the men who fifty years ago owned New York? Passed on.

There is no use in our driving our stakes too deep into the earth; we are on the march. The generations that have preceded us have gone so far on that we cannot even hear the sound of their footsteps. They have gone over the hills, and we are to follow them. But blessed be God we are not in this world left out of doors and unsheltered. There are gospel booths, or gospel arbors, in which our souls are to be comforted. Go forth unto the mountain, and fetch olive branches, and pine branches, and myrtle branches, and palm branches, and branches of thick trees, and build booths.

THE ARBOR OF THE GOSPEL.

Well, now we are today to construct a gospel arbor or gospel booth; and how shall we construct it? Well, we must get all the tree branches and build. According to my text we must go up into the mount and bring olive branches. What does that mean?

The olive tree grows in warm climates, and it reaches the height of twenty or twenty two feet, a straight stem, and then an offshoot from that stem. And then people come and they strip off these branches sometimes, and when in time of war the general of one army takes one of these olive branches and goes out to the general of another army, what does that mean? Why, it means unsaddle the war chargers. It means hang up the war knapsacks. It is but a beautiful way of saying Peace!

Now if we are today going to succeed in building this gospel arbor, we must go into the Mount of God's blessing and fetch the olive branches, and whatever else we must have, and we must have at least two olive branches, peace with God and peace with man. When I say peace with God, I do not mean to represent God as a bloody chieftain, having a grudge against us, but I do mean to affirm there is no more antagonism between hound and a hare, between a hawk and a pullet, between elephant and swine, than there is hostility between holiness and sin. And if God is all holiness, and we are all sin, there must be a readjustment, there must be a reconstruction, there must be a treaty, there must be a stretching forth of olive branches.

THE HUMAN VS. THE DIVINE.

There is a great law suit going on now, and it is a law suit which man is bringing against his Maker; that law suit is now on the calendar. It is the human versus the divine; it is iniquity versus the immaculate; it is weakness versus omnipotence. Man began it; God did not begin the law suit. We began it; we assaulted our Maker, and the sooner we end this part of the struggle in which the finite attempts to overthrow the infinite and omnipotent, the sooner we end it the better.

Travelers tell us there is no such place as Mount Cavalry—that it is only a hill, only an insignificant hill; but I persist in calling it the mount of God's divine mercy and love, far grander than any other place on earth, grander than the Alps or Himalayas, and there are no other hills as compared with it; and I have noticed in every sect where the cross of Christ is set forth it is planted with olive branches. And all we have to do is to get rid of this war between God and ourselves, of which we are all tired. We want to back out of the war, we want to get rid of this hostility. All we have to do is just to get up on the mount of God's blessing, and pluck these olive branches and wave them before the throne. Peace through our Lord Jesus Christ!

Oh, it don't make much difference what the world thinks of you; what this king, that queen, that senator thinks of you. But come into the warm, intimate, glowing and everlasting relationship with the God of the round universe; that is the joy that makes a hallelujah seem stupid. Ah, why do we we want to have peace through our Lord Jesus Christ? Why, if we had gone on in ten thousand years of war against God, we could not have captured so much as a sword or a cavalry stirrup, or twisted off one of the wheels of the chariot of his omnipotence. But the moment we bring this olive branch God and all heaven come on our side. Peace through our Lord Jesus Christ; and no other kind of peace is worth anything.

DON'T QUARREL.

But then we must have that other olive branch, peace with man. Now it is very easy to get up a quarrel. There are gunpowdery Christians all around us, and one match of provocation will set them off. It is easy enough to get up a quarrel. But, my brother, don't you think you had better have your horns sawed off? Had you not better make an apology? Had you not better submit to a little humiliation? Oh, you say, until that man takes the first step I will never be at peace with him; nothing will be done until he is ready to take the first step. You are a pretty Christian. When would this world be saved if Christ had not taken the first step? We were in the wrong, Christ was in the right, all right and forever right. And yet he took the first step. And instead of going and getting a knotty scourge with which to whip your antagonist, your enemy, you had better get up on the fashionable mount, where Christ suffered for his enemies, and just take an olive branch, not stripping off the fruit, cool, fragrant leaves, but leaving them all on, and then try on them that gospel switch. It won't hurt them, and it will save you. Peace with God; peace with man. If you cannot take these two doctrines you are no Christian.

Blest be the tie that binds
Our hearts in Christian love;
The fellowship of kindred minds
Is like to that above.

From sorrow, toil and pain,
And sin we shall be free;
And perfect love and friendship reign
Through all eternity.

But my text goes further. It says: Go up into the mountain, and fetch olive branches and pine branches. Now, what is suggested by the pine branches? The pine tree is healthy; it is aromatic; it is evergreen. How often the physician says to his invalid patients: "Go and have a breath of the pines. That will invigorate you." Why do such thousands of people go south every year? It is not merely to get to a warmer climate, but to get to the influence of the pine. There is health in it, and this pine branch of the text suggests the health of those of our holy religion; it is full of health—health for all, health for the mind, health for the soul.

DINED DAILY WITH THE KING.

I knew an aged man who had no capital of physical health. He had had all the diseases you could imagine; he did not eat enough to keep a child alive; he lived on a beverage of hosannas. He lived high, for he dined every day with the king. He was kept alive simply by the force of our holy religion. It is a healthy religion; healthy for the eye, healthy for the hand, healthy for the foot, healthy for the heart, healthy for the liver, healthy for the spleen, healthy for the whole man. It gives a man such peace, such quietness, such independence of circumstances, such holy equipoise. Oh, that we all possessed it; that we possessed it now. I mean that it is healthy if a man gets enough of it. Now, there are some people who get just enough religion to bother them, just enough religion to make them sick; but if a man take a full, deep, round inhalation of these pine branches of the gospel arbor he will find it buoyant, exuberant, undying, immortal health.

But this pine branch of my text also suggests the simple fact that it is an evergreen. What does this pine branch care for the snow on its brow? It is only a crown of glory. The winter cannot freeze it out. This evergreen tree branch is as beautiful in winter as it is in the summer. And that is the characteristic of our holy religion; in the sharpest, coldest winter of misfortune and disaster, it is as good a religion as it is in the bright summer sunshine. Well, now that is a practical truth. For if I should go up and down these aisles I would not find in this house fifty people who had no trouble. But there are some of you who have especial trouble. God only knows what you go through with. Oh how many bereavements, how many poverties, how many persecutions! How many misrepresentations! And now my brother, you have tried everything else, why don't you try this evergreen religion? It is just as good for you now as it was in the days of your prosperity; it is better for you. Perhaps some of you feel almost Muckle Jackie, the fisherman, who was chided one day because he kept on working, although that very day he buried his child. They came to him and said: "It is indecent for you to be mending that boat when this afternoon you buried your child." And the fisherman looked up and said: "Sir, it is very easy for you gentle folks to stay in the house with your handkerchief to your eyes in grief; but sir, ought I to let the other five children starve because one of them is drowned? No, sir; we mann work, we mann work, though our hearts beat like this hammer."

RELIGION CAN HELP YOU.

You may have had accumulation of sorrow and misfortune. They come in flocks, they come in herds upon your soul; and yet I have to tell you that this religion can console you, that it can help you, that it can do for you what nothing else will. Do you tell me that the riches and the gain of this world can console you? How was it with the man who had such a fondness for money that when he was sick he ordered a basin of gold pieces to be brought to him, and he put his gouty hands down among the gold pieces cooling his hands off in them, and the rattle and rolling of these gold pieces were his amusement and entertainment. Ah, the gold and silver, the honors, the emoluments of this world are a poor solace for a perturbed spirit. You want something better than this world can give. A young prince, when his children came around to play with him, refused to play; he said, I will play only with kings. And it might be supposed that you would throw away all other solace before this regal satisfaction, this imperial joy. Ye who are sons and daughters of the Lord Almighty ought to play only with kings.

The hill of Zion yields
A thousand sacred sweets,
Before we reach the heavenly fields
Or walk the golden streets.

THE HONORED PALM TREE.

But my text takes a step further, and it says, "Go into the mountain, and fetch olive branches, and pine branches, and palm branches." Now the palm tree was very much honored by the ancients. It had three hundred and sixty different uses. The fruit was conserved; the sap was a beverage, the stems were ground up for food for camels; the base of the leaves was turned into hats, and mats and baskets, and the leaves were carried in victorious processions, and from the root to the top of the highest leaf there was usefulness. The tree grew eighty-five feet in height sometimes, and it spread broad leaves four and five yards long; it meant usefulness, and it meant victory; usefulness for what it produced, victory because it was brought into celebrations of triumph. And oh, how much we want the palm branches in the churches of Jesus Christ at this time! A great many Christians don't amount to anything. You have to shove them out of the way when the Lord's chariots come along. We don't want any more of that kind of Christians in the church.

The old maxim says: "Do not put all your eggs into one basket;" but I have to tell you in this matter of religion you had better give your all to God, and then get in yourself. "Oh," says some one, "my business is to sell silks and cloths." Well, then, my brother, sell silks and cloths to the glory of God. And some one says, "My business is to raise corn and carrots." Then, my brother, raise corn and carrots to the glory of God. And some one says: "My business is to manufacture horseshoe nails." Then manufacture horseshoe nails to the glory of God. There is nothing for you to do that you ought to do but for the glory of God.

Usefulness is typified by the palm tree. Ah, we don't want in the church any more people that are merely weeping willows, sighing into the water, standing and admiring their long lashes in the glassy spring. No wild cherry, dropping bitter fruit. We want palm trees, holding something for God, something for angels, something for man. I am tired and sick of this fat, tame, insipid, satin-slippered, namby-pamby, mighty-mighty religion! It is worth nothing for this world, and it is destruction for eternity.

WANTED: TRUE RELIGION.

Give me five hundred men and women fully consecrated to Christ, and we will take any city for God in three years. Give me ten thousand men and women fully up to the Christian standard; in ten years ten thousand of them would take the whole earth for God. But when are we going to begin.

Ledyard, the great traveler, was brought before the Geographical Society of Great Britain, and they wanted him to make some explorations in Africa, and they showed him all the perils, and all the hard work, and all the exposure, and after they had told him what they wanted him to do in Africa, they said to him: "Now, Ledyard, when are you ready to start?" He said: "To-morrow morning." The learned men were astonished; they thought he would take weeks or months to get ready. Well, I will tell me you want to be useful in Christian [illegible]. When are you going to begin? Oh, that you have the decision to say, "To-day, now." Go now into the mount and gather the palm branches. But the palm branch also meant victory. In all ages, in all lands, the palm branch means victory. We are by nature the servants of Satan. He stole us, he has his eye on us, he wants to keep us. The word comes from our Father that if we will try to break loose from this doing of wrong, our Father will help us; and some day we rouse up, and we look the black tyrant in the face, and we fly at him, and we wrestle him down, and we put our feet on his neck, and we grind him in the dust, and we say, Victory, victory, through our Lord Jesus Christ! Oh what a grand thing it is to have sin under foot and a wasted life behind our backs. "Blessed is he whose transgression is forgiven, and whose sin is covered." "But," says the man, "I feel so sick and worn out with the ailments of life." You are going to be more than conqueror. "But," says the man, "I am so tempted, I am so pursued by the enemy." You are going to be more than conqueror. "I who have so many ailments and heartaches, going to be more than conqueror?" Yes, unless you are so self conceited that you want to manage all the affairs of your life yourself instead of letting God manage them. Do you want to drive and have God take a back seat? Oh, no, you say, I want God to be my leader. Well, then, you will be more than conqueror. Your last sickness will come, and the physicians in the next room will be talking about what they will do for you. What difference will it make what they do for you? You are going to be well, everlastingly well. And when the spirit has fled the body, your friends will be talking as to where they shall bury you. What difference does it make to you where they bury you? The angel of the resurrection can look you out of the dust anywhere, and all the cemeteries of the earth are in God's care. Oh, you are going to be more than conqueror. Don't you think we had better begin now to celebrate the coming victory? In the old meeting house at Sunnerville my father used to lead the singing, and he had the old fashioned tuning fork, and he would strike it upon his knee, and then put the tuning fork to his ear to catch the right pitch and start the hymn. But, friend, don't you think we had better be catching the pitch of the everlasting song, the song of victory when we shall be more than conquerors? Had we not better begin the rehearsal on earth? "They shall hunger no more, neither thirst any more; neither shall the sun light on them, nor any heat. For the Lamb which is in the midst of the throne shall feed them, and shall lead them to living fountains of water; and God shall wipe away all tears from their eyes."

City of eternity, to thy bridal halls
From this prison would I flee;
Ah, glory! this is for you and me.

WE HAVE A BRAWNY CHRISTIANITY.

My text brings up one step further. It says, go forth into the mount and fetch olive branches, and pine branches, and myrtle branches, and palm branches, and branches of thick trees. Now, you know very well that a booth or arbor made of slight branches would not stand. The first blast of the tempest would prostrate it. So, then, the booth or arbor must have four stout poles to hold up the arbor or booth; and hence for the building of the arbor for this world we must have stout branches of thick trees. And so it is in the gospel arbor. Blessed be God that we have a brawny Christianity, not one easily upset. The storms of life will come upon us, and we want strong doctrine, not only love, but justice; not only invitation by warning. It is a mighty Gospel; it is an omnipotent Gospel. These are the stout branches of thick trees. I remember what Mr. Finney said in a school house in this state. The village was so bad it was called Sodom, and it was said to have only one good man in all the village, and he was called Lot; and Mr. Finney, preaching, described the destruction of Sodom, and the preacher declared that God would rain destruction upon his hearers unless they too repented. And the people in the school house sat and ground their teeth in anger, and clinched their fists in indignation; but, before he was through with his sermon they got down on their knees and cried for mercy while mercy could be found. Oh, it is a mighty Gospel; not only an invitation, but a warning; an omnipotent truth, stout branches of thick trees. Well, my friends, I have shown you here is the olive branch of peace, here is the pine branch of evergreen gospel consolation, here the palm tree branch of usefulness and victory, and here are the stout branches of thick trees. The gospel arbor is done. The tabernacle of the dead. The Lord was pushing with the gladness of God. Come into the arbor. I went out at different times with a fowler to the mountains to catch pigeons; and we made our booth, and we sat in that booth, and watched for the pigeons to come. And we found flocks in the fury, and after a while they dropped into the net and we were successful. So I come now to the door of this gospel booth and I look out, I see flocks of souls flying hither and flying thither. Oh, that they might come like clouds and as doves to the window. Come into the booth. Come into the booth.

THE BRITISH COLUMBIA FIRE INSURANCE COMPANY.

TAKES RISKS ON THE CASH OR MUTUAL PLANS.

As this is a Home Company, organized by British Columbians for the two-fold purpose of giving cheap insurance and keeping the money in this Province, it commends itself to the support of every insurer desiring the prosperity of this country.

In Ontario, the system of insurance, which is similar to that adopted by this Company, has been in highly successful operation for the past fifty years, and it has proved to be a great advantage to every insurer in it, by reducing the cost of insurance, and it is estimated that now three-fourths of the insurance effected in Ontario is carried by mutual companies.
